

Dear Snowwarrior Nation,

With Memorial Day upon us, I thought it best to take our friends and members through the state of the club and provide an update on things.

The Indian Lake Snowwarriors are as strong as they have been in quite some time. The club is rock solid financially with ample reserves in the bank and a mere indebtedness of \$25,000 on an asset worth approximately \$125,000. Our leadership is strong with officers and board members that are committed to its success and well-being. As a reflection of our growth, we just added two board seats, adding Andy Cunniff and Glenn Van Norstrand to the board. Membership is growing and volunteerism among members is growing. Special thanks to Charlie, Joe, Andy and Glenn, along with everyone else who supported our first ever Landowner Appreciation Breakfast held in April. Relationships with our local governing body and community are very friendly and supportive, with community outreach continually growing. Last weekend we finished Spring Highway Cleanup on RT 30 and on Saturday 6/8 our team will be handing out water for the Annual Black Fly Challenge through Moose River Plains. Books and records, as well as our tax filings, are current. Our status as a 501(3)c is unchallenged and we are in good standing with NY State. One of our board members (Darrin Harr) is the Hamilton County delegate for the NYSSA, where we are highly respected due to our turnaround as a club. Our new groomer, which we could not have acquired without a tremendous effort from Brian B as well as too many other people to name, is in tip top mechanical shape due to many folks like Jaime, Ed B, Glenn V, Joe and Andy who are the backbone of groomer maintenance. Groomer is in process of going into indoor storage, where she will wait for the eventual flakes of next Winter. We are overrun with volunteer groomers who dream about their opportunity to take the new groomer on the trail. Catastrophic risks to club are de minimis given our recent purchase of officers and directors insurance, liability insurance provided through NYSSA as well as our corporate structure.

So, things are great, and we are working hard to keep things humming along. In order to ensure this please renew your memberships, get involved in our volunteer events and keep your eyes on this Website as well as our Facebook page for current club happenings. Lot is going on as we wait for Winter.

Remember we ride stronger together,

Ed
